

Koh-i-noor scale 1:42

Koh-i-noor is a not-for-profit, artist-run space for experimenting art in downtown Copenhagen, which was initiated in 2004 by 6 artists from Funen Academy of Fine Arts. Today, there are 8 members of Koh-i-noor, who are all founded in a conceptual art practise. The main purpose of Koh-i-noor is to provide the Danish art scene with an alternative space. Each month there are one or two exhibitions with local or international artists.
